

New Source Review newspaper advertisements for construction permit applications, May 31, 2018. The following public notices have been published in the newspapers listed below each advertisement. These newspaper advertisements for construction permit applications will be or were published on one of the following dates: May 29, 2018, May 30, 2018, or May 31, 2018. Public notices are generally published every week. The previous publication of public notices was May 24, 2018.

PUBLIC NOTICE

The Tennessee Division of Air Pollution Control (TDAPC) has received requests for construction and/or modification of air contaminant sources as noted below. The proposed construction and/or modification is subject to part 1200-03-09-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to Mrs. Michelle W. Owenby, Director, Division of Air Pollution Control, William R. Snodgrass Tennessee Tower, 312 Rosa L. Parks Avenue, 15th Floor, Nashville, Tennessee 37243 within thirty (30) days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Any individuals with disabilities who wish to participate in these proceedings or to review these filings should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such initial contact may be in person, by writing, telephone, or other means, and should be made no less than ten (10) days prior to the hearing, or the date such party intends to review such filings, to allow time to provide such aid or service. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 2nd Floor, William R. Snodgrass Tennessee Tower, 312 Rosa L. Parks Avenue, Nashville, TN 37243, (866) 253-5827 (toll free) or (615) 532-0200. Hearing impaired callers may use the Tennessee Relay Service (1-800-848-0298).

The applicant is Hawkins Asphalt Paving, LLC with a mailing address of PO Box 292, Wartrace, TN 37183. They seek to obtain an air contaminant permit (Division identification number: 08-0065-01/74075) for construction of a Batch Mix Asphalt Plant located at 849 Bradyville Road, Woodbury, TN 37190. The proposed operation would consist of a batch mixer, asphalt cement storage, crushed aggregate storage piles, and reclaimed asphalt pavement for making hot mix asphalt. Fabric filter bags (baghouse) would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. J. Horton is the assigned Division person.

For the Cannon County "Cannon Courier"--- publish once on Tuesday, May 29, 2018.

The applicant is Dole Refrigerating Company, Inc. dba Kenco Plastics, Inc. with a mailing address of 1420 Higgs Road, Lewisburg, TN 37091. They seek to obtain an air contaminant permit (Division identification number: 59-0093-02/973838) for construction of a surface coating operation located at the same address. This proposed operation would consist of one spray booth and associated equipment used for surface coating of miscellaneous metal parts. Exhaust filters would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. Moe Baghernejad is the assigned Division person.

For the Marshall County "Marshall County Tribune"-- publish once on Wednesday, May 30, 2018.

The applicant is Atlas BX America Corp. with a mailing address of 333 Commerce Street, Suite 500, Nashville, TN 37201. They seek to obtain air contaminant permits for construction of a Lead-Acid Battery Manufacturing Facility at International Boulevard (approximately one mile East from the intersection of International Blvd and Dunlop Lane), Clarksville, 37043, as follows:

(01) Grid Casting (Division identification number: 63-0385-01/74083). This proposed operation would consist of Production of lead strips by casting. A Fabric Filter Dust Collector would be used for control

(02) Lead Oxide Production (Division identification number: 63-0385-02/74083). This proposed operation would consist of Melting of lead ingots in a melting pot, and transfer to a cylinder casting machine. Lead cylinders would then be conveyed and stored in a silo. Lead cylinders are then fed to a tumbler in order to initiate the oxidation process. A Fabric Filter Dust Collector would be used for control.

(03) Mixing and Pasting (Division identification number: 63-0385-03/74083). This proposed operation would consist of Mixing of lead powder, sulfuric acid, water and additives. This mix is then pasted on both the anode and cathode plates. A Fabric Filter Dust Collector would be used for control

(04) Assembly / Three Process operation (Division identification number: 63-0385-04/74083). This proposed operation would consist of Element Stacking, Strap and Spool Making, and Post Burning. Covers are sealed into place by plastic welding. A Fabric Filter Dust Collector and Mist Eliminators would be used for control

(05) Formation and Finishing (Division identification number: 63-00385-05/74083). Sulfuric acid is added, also electrical treatment. Covers are sealed into place by plastic welding. Wet Scrubbers and Mist Eliminators would be used for control.

These processes are subject to 40 CFR 60 Subpart KK Lead Acid Battery Manufacturing and 40 CFR 60 Subpart P Lead Acid Battery Manufacturing.

For all of the above units, there would be physical construction and regulated air contaminants would be emitted. Mr. Greg Forte is the assigned Division person.

For the Montgomery County "Leaf-Chronicle" ---publish once on Thursday, May 31, 2018.

The applicant is Tyson Farms, Inc. with a mailing address of 2800 E. Tyson Drive, Union City, TN 38261. They seek to obtain air contaminant permits (Division identification number: 66-0112-01, 05, 10, & 13 / 974030) for the modification of a poultry processing and hatchery facility located at the same address. This existing operation consists of sources 01 to 14. The requested modifications is to replace two (2) existing fryers and add two (2) new fryers and install two (2) 17.5 MMBtu/hr. natural gas-fired thermal fluid heaters. In addition, modification of an existing boiler and five (5) emergency generator engine systems was requested. The modification of the boiler is to increase the heat input rating to the manufacturer's specification. The modification of the five (5) emergency generator engine systems is to install diesel oxidation catalyst controls and allow the generator engine systems to operate for demand response. There will be physical construction. Regulated air contaminants are emitted by this source. Ms. J. Pratt is the assigned Division person.

For Obion County "Union City Daily Messenger"---publish once on Thursday, May 31, 2018.
